SUBJECT:

Notice of Meeting for 16 May 1985

LOGGED

1. A meeting of the Technology Subcommittee is hereby called at 1400 on Thursday, 16 May 1985, [Redacted] Room 6W02.

STAT

2. The purpose of the meeting will be to discuss the future activities of the subcommittee with the new Chairman, IHC, and to receive a briefing on research and development activities being pursued by the 3M corporation having potential appreciation to Intelligence Community information handling problems.

3. The briefing by 3M was arranged as a result of their offer to bring senior management and laboratory officials from their research and development facilities in St. Paul, Minnesota, for this purpose. Some of the topics to be discussed are as follows:

Graphic Technologies Sector

- DICMS (Digital Image Communication & Management System)
- Electro-photography
- Laser imaging
- Softcopy training facilities (COMTAL)

Electronic and Information Technologies Sector

- Magneto-optics (discs, other erasable media)
- Non-erasable optical tape (organic technology)
- Magnetic recording (stretched-surface, perpendicular)
- Blue/green laser diode development

4. Please certify your SI/TK clearance to the IC Staff for one year if it has not already been done. I would appreciate your calling [Redacted] on [Redacted] to confirm attendance at this meeting.
